**WORLD OF
TRAMPOLINES**

AKROBAT

With more than two decades of expertise crafting trampolines, we stand tall as one of Europe's premium suppliers in the industry. Our commitment lies in delivering unparalleled quality and value to our customers, ensuring their satisfaction with every bounce.

WE KEEP KIDS HEALTHY AND SAFE

At Akrobat, our mission is to enrich children's lives. Through active play, children can develop robust and healthy bodies, laying the foundation for their overall development. This healthy lifestyle contributes significantly to their potential for success in adulthood.

WIDE RANGE OF TRAMPOLINES

Diversity is at the heart of our product offerings at Akrobat. Recognizing the unique needs of our customers, we offer a comprehensive range of trampolines in various shapes and sizes. Whether for recreational use, fitness, or professional training, our trampolines cater to a wide spectrum of needs and preferences.

SOFTER BOUNCE ABSORPTION

Laboratory tests confirm that Akrobat trampolines outperform mainstream competitors in bounce absorption. Our meticulous design and testing ensures a smoother, gentler landing experience, with more even deceleration of jumps. This superior bounce absorption is particularly beneficial for children, reducing stress on their joints and spine for safer and more enjoyable play.

EXPERT ENGINEERING AND CRAFTSMANSHIP

Our expert engineering and craftsmanship is reflected in every trampoline. Meticulously designed to exceed customer expectations, each trampoline prioritizes safety, premium quality materials and can withstand diverse weather conditions. Plus, our trampolines offer superior bounce performance, delivering an exhilarating jumping experience.

CERTIFIED PRODUCTS

Our premium trampolines fulfil the strictest EU standards and guarantee compliance with rigorous regulations. With over two decades of experience, we are a trusted European supplier that delivers valuable products to our customers.

100% MADE IN EUROPE

Our European-made trampolines set the standard for quality, crafted from premium materials to ensure durability and longevity. Enjoy years of fun with knowing your trampoline is built to last.

PRODUCTS

Akrobat trampolines are synonymous for lasting quality, unpaired performance and guaranteed safety. And they're so much fun!

MADE TO LAST!

Durability is at the core of our design and manufacturing philosophy. We use rigorously tested, certified and non-toxic weather resistant materials that guarantee the longevity of our products. Our heavy-duty frames are manufactured from hot-dip galvanised steel with a minimum 275 g/m² zinc coating, providing robust structural strength and rust resistance. Even in coastal regions with high concentrations of salt spray, our trampolines can withstand the elements.

GUARANTEED TO WITHSTAND 2.5 MILLION JUMPS

Our commitment to quality extends to our industry-leading warranties, thanks to the use of premium materials and expert craftsmanship in all our trampolines. Proudly manufactured in Europe, our trampolines outlast and outperform competitors, ensuring enjoyment for many years to come.

AKROSPRING PRO SYSTEM

The AkroSpring Pro System embodies innovation and durability, providing exceptional elasticity, quiet operation, and a powerful bounce experience while minimizing impact on the body. Engineered for longevity, this spring system ensures lasting performance and enjoyment.

AKROCLICK SYSTEM

Assembling an Akrobat trampoline is effortless, thanks to the ingenious AkroClick system. Profiles seamlessly connect without the need for screws or tools, simplifying the assembly process into a few quick and easy steps. Enjoy the convenience and efficiency of AkroClick for hassle-free setup.

PRODUCTS

ACCESSORIES

We've curated a collection of accessories designed to either enhance the longevity of your trampoline by providing protection or expand its versatility for various uses.

1 WEATHER COVER

Shielding your trampoline year-round from harsh weather and debris, this cover prolongs its lifespan and adds countless enjoyable jumping sessions. Crafted from UV-resistant, top-grade PVC, it's available in various sizes and shapes to fit all trampolines.

2 LADDER

We supply two different types of ladders for use with above ground trampolines, depending on customer preferences regarding size and number of steps.

3 SHOE MAT

The footwear mat offers a comfortable surface for barefoot standing while preparing to ascend the trampoline ladder. It effectively keeps dirt at bay, contributing to the cleanliness and upkeep of your trampoline area.

4 TRAMPOLINE SOCKS

Engineered for durability and safety, these grip socks feature high-quality traction material on the soles to minimize sliding and reduce accident risks. Additionally, they aid in controlling the spread of microbes between users, promoting hygienic jumping sessions, especially in multi-user environments.

5 WEED PROTECTION

For in-ground trampoline installations, it's recommended to utilize a weed membrane to cover the hole. This barrier prevents weeds from sprouting beneath the trampoline, thus avoiding interference with the jumping experience and potential damage to springs.

6 SPRINGS

The innovative springs are extremely durable and offer long-lasting elasticity, quiet operation and a more powerful bounce experience with low impact on the body.
